

## Requesting a Personal Budget

*Relevant legislation: Section 49 of the Children and Families Act 2014, the Special Educational Needs (Personal Budgets) Regulations 2014, the Community Care, services for Carers and Children's Services (Direct Payments) Regulations 2009 (the 2009 regulations will be replaced by those made under the Care Act 2014), and the National Health Service (Direct Payments) Regulations 2013*

- 9.95 A Personal Budget is an amount of money identified by the local authority to deliver provision set out in an EHC plan where the parent or young person is involved in securing that provision (see 'Mechanisms for delivery of a Personal Budget' below).
- 9.96 Local authorities **must** provide information on Personal Budgets as part of the Local Offer. This should include a policy on Personal Budgets that sets out a description of the services across education, health and social care that currently lend themselves to the use of Personal Budgets, how that funding will be made available, and clear and simple statements of eligibility criteria and the decision-making processes.
- 9.97 Personal Budgets are optional for the child's parent or the young person but local authorities are under a duty to prepare a budget when requested. Local authorities **must** provide information about organisations that may be able to provide advice and assistance to help parents and young people to make informed decisions about Personal Budgets. Local authorities should use the information on Personal Budgets set out in the Local Offer to introduce the idea of Personal Budgets to parents and young people within the person-centred approach described in paragraphs 9.21 to 9.26.
- 9.98 The child's parent or the young person has a right to request a Personal Budget, when the local authority has completed an EHC needs assessment and confirmed that it will prepare an EHC plan. They may also request a Personal Budget during a statutory review of an existing EHC plan.
- 9.99 Personal Budgets should reflect the holistic nature of an EHC plan and can include funding for special educational, health and social care provision. They should be focused to secure the provision agreed in the EHC plan and should be designed to secure the outcomes specified in the EHC plan.
- 9.100 Further resources on Personal Budgets are available through the DfE-funded 'Making it Personal' project. This includes guidance for parents, commissioners and suppliers and is available on the Kids website – a link is provided in the References section under Chapter 3.

### Mechanisms for delivery of a personal budget

- 9.101 There are four ways in which the child's parent and/or the young person can be involved in securing provision:

- Direct payments – where individuals receive the cash to contract, purchase and manage services themselves
- An arrangement – whereby the local authority, school or college holds the funds and commissions the support specified in the plan (these are sometimes called notional budgets)
- Third party arrangements – where funds (direct payments) are paid to and managed by an individual or organisation on behalf of the child's parent or the young person
- A combination of the above

### Setting and agreeing the Personal Budget

9.102 The child's parent or the young person should be given an indication of the level of funding that is likely to be required to make the provision specified, or proposed to be specified in the EHC plan. An indicative figure can be identified through a resource allocation or banded funding system. As part of a person-centred approach to the development of the EHC plan, the local authority should agree the provision to be made in the plan and help the parent or young person to decide whether they want to take up a Personal Budget. Local authorities should be clear that any figure discussed at this stage is indicative and is a tool to support the planning process including the development of the draft EHC plan. The final allocation of funding budget **must** be sufficient to secure the agreed provision specified in the EHC plan and **must** be set out as part of that provision.

9.103 Details of the proposed Personal Budget should be included in section J of the draft EHC plan and, where the proposed budget includes direct payments for special educational provision, this section must include the SEN and outcomes to be met by the payment. Local authorities must also provide written notice of the conditions for receipt of any direct payment for special educational provision and can do this alongside the draft EHC plan. The child's parent or the young person should confirm their decision and agreement of the budget. Where appropriate, this **must** include their agreement, in writing, of the conditions for receipt of the direct payment,

alongside any request for a particular school, college or other institution to be named in the EHC plan. Where the child's parent or the young person has nominated a person to receive payments on their behalf, the agreement must come from the proposed recipient.

9.104 Where a direct payment is proposed for special educational provision, local authorities **must** secure the agreement of the early years setting, school or college, if any of the provision is to be delivered on that institution's premises. Local authorities should

usually do this when they consult the institution about naming it on the child or young person's EHC plan. The local authority should also seek assurance from the child's parent, young person or nominee that any person employed by the child's parent or young person, but working on early years, school or college premises, will conform to the policies and procedures of that institution and may write such an assurance into the conditions for receipt of the direct payment.

- 9.105 Where agreement cannot be reached, with the early years setting, school or college, the local authority **must not** go ahead with the direct payment. However, they should continue to work with the child's parent or young person and the school, college or early years setting to explore other opportunities for the personalisation of provision in the EHC plan. Local authorities may wish to discuss the potential for arrangements whereby the local authority, the early years setting, school or college, holds a notional budget with a view to involving the child's parent or the young person in securing the provision. The broader purpose of such arrangements is to increase the participation of children, their parents and young people in decisionmaking in relation to special educational provision
- 9.106 Local authorities **must** consider each request for a personal budget on its own individual merits. If a local authority is unable to identify a sum of money they should inform the child's parent or young person of the reasons. For example, the local authority might agree that the provision is needed but may be unable, at that point in time, to disaggregate funding that is currently supporting provision of services to a number of children and young people.
- 9.107 If the local authority refuses a request for a direct payment for special educational provision on the grounds set out in regulations (see paragraphs 9.119 to 9.124 below) the local authority **must** set out their reasons in writing and inform the child's parent or the young person of their right to request a formal review of the decision. The local authority **must** consider any subsequent representation made by the child's parent or the young person and notify them of the outcome, in writing, setting out the reasons for their decision.
- 9.108 Where the disagreement relates to the special educational provision to be secured through a Personal Budget the child's parent or the young person can appeal to the First-tier Tribunal (SEN and Disability), as with any other disagreement about provision to be specified in an EHC plan.
- 9.109 Decisions in relation to the health element (Personal Health Budget) remain the responsibility of the CCG or other health commissioning bodies and where they decline a request for a direct payment, they **must** set out the reasons in writing and provide the opportunity for a formal review. Where more than one body is unable to meet a request for a direct payment, the local authority and partners should consider sending a single letter setting out the reasons for the decisions.

## Scope of personal budgets

- 9.110 The Personal Budget can include funding from education, health and social care. However, the scope of that budget will vary depending on the needs of the individual, the eligibility criteria for the different components and the mechanism for delivery. It will reflect local circumstances, commissioning arrangements and school preference. The scope of Personal Budgets should increase over time as local joint commissioning arrangements provide greater opportunity for choice and control over local provision.
- 9.111 Local authority commissioners and their partners should seek to align funding streams for inclusion in Personal Budgets and are encouraged to establish arrangements that will allow the development of a single integrated fund from which a single Personal Budget, covering all three areas of additional and individual support, can be made available. EHC plans can then set out how this budget is to be used including the provision to be secured, the outcomes it will deliver and how health, education and social care needs will be met.

### Education

- 9.112 The special educational provision specified in an EHC plan can include provision funded from the school's budget share (or in colleges from their formula funding) and more specialist provision funded wholly or partly from the local authority's high needs funding. It is this latter funding that is used for Personal Budgets, although schools and colleges should be encouraged to personalise the support they provide and they can choose to contribute their own funding to a Personal Budget (this will usually be an organised arrangement managed by the setting, but some schools and colleges, including specialist settings, have made innovative arrangements with young people, giving them direct (cash) payments).
- 9.113 High needs funding can also be used to commission services from schools and colleges, including from special schools. In practice, this will mean the funding from the local authority's high needs budget for the SEN element of a Personal Budget will vary depending on how services are commissioned locally and what schools and colleges are expected to provide as part of the Local Offer. The child's parent or the young person should be made aware that the scope for a Personal Budget varies depending on their school preference. For example, as part of their core provision, special schools and colleges make some specialist provision available that is not normally available at mainstream schools and colleges. The particular choice of a special school, with integrated specialist provision, might reduce the scope for a Personal Budget, whereas the choice of a place in a mainstream school that does not make that particular provision could increase the opportunity for a Personal Budget.

## Health

- 9.114 Personal Health Budgets for healthcare are not appropriate for all of the aspects of NHS care an individual may require. Full details of excluded services are set out in guidance provided by NHS England and include primary medical (i.e. GP services) and emergency services.
- 9.115 In principle, other than excluded services a Personal Health Budget could be given to anyone who needs to receive healthcare funded by the NHS where the benefits of having the budget for healthcare outweigh any additional costs associated with having one.
- 9.116 Since April 2014, everyone receiving NHS Continuing Healthcare (including children's continuing care) has had the right to ask for a Personal Health Budget, including a direct payment. From October 2014 this group will benefit from 'a right to have' a Personal Health Budget.
- 9.117 The mandate to NHS England sets an objective that from April 2015 Personal Health Budgets including direct payments should be an option for people with long-term health needs who could benefit from one. This includes people who use NHS services outside NHS Continuing Healthcare.

## Social Care

- 9.118 The Care Act 2014 mandates, for the first time in law, a Personal Budget as part of the care and support plan for people over 18 with eligible care and support needs, or where the local authority decides to meet needs. The Act also clarifies people's right to request a direct payment to meet some or all of their care and support needs, and covers people with and without capacity to request a direct payment. For children and young people under 18, local authorities are under a duty to offer direct payments (see paragraph 9.123 below) for services which the local authority may provide to children with disabilities, or their families, under section 17 of the Children Act 1989.

## Use of direct payments

- 9.119 Direct payments are cash payments made directly to the child's parent, the young person or their nominee, allowing them to arrange provision themselves. They **must** be set at a level that will secure the provision specified in the EHC plan. If a direct payment is not set at a suitable level, it **must** be reviewed and adjusted. Local authorities **must not** make direct payments for the purpose of funding a school place or post-16 institution.
- 9.120 Local authority and health commissioning body duties to secure or arrange the provision specified in EHC plans are discharged through a direct payment only when the provision has been acquired for, or on behalf of, the child's parent or the young person and this has been done in keeping with regulations. Funding **must** be set at a

level to secure the agreed provision in the EHC plan and meet health needs agreed in the Personal Health Budget Care Plan (see paragraph 9.124 below for the additional information that needs to be included in an EHC plan to meet the requirements for a Care Plan).

9.121 Direct payments for special educational provision, health care and social care provision are subject to separate regulations. These are:

- The Community Care, services for Carers and Children's Services (Direct Payments) Regulations 2009 (the 2009 regulations will be replaced by those made under the Care Act 2014)
- The National Health Service (Direct Payments) Regulations 2013
- The Special Educational Needs (Personal Budgets) Regulations 2014

9.122 The regulations have many common requirements including those covering consent, use of nominees, conditions for receipt, monitoring and review of direct payments and persons to whom direct payments **must not** be made (such as those subject to certain rehabilitation orders). Detailed arrangements for direct payments should be set out in section J of the EHC plan.

9.123 Local authorities **must** offer direct payments for social care services. For both education and social care the local authority **must** be satisfied that the person who receives the direct payments will use them in an appropriate way and that they will act in the best interests of the child or young person. Regulations governing the use of direct payments for special educational provision place a number of additional requirements on both local authorities and parents before a direct payment can be agreed. These include requirements to consider the impact on other service users and value for money and to seek agreement from educational establishments where a service funded by a direct payment is delivered on their premises.

9.124 Direct payments for health require the agreement of a Care Plan between the CCG and the recipient. This requirement can be fulfilled by sections G and J of the EHC plan as long as it includes the following information:

- the health needs to be met and the outcomes to be achieved through the provision in the plan
- the things that the direct payment will be used to purchase, the size of the direct payment, and how often it will be paid
- the name of the care co-ordinator responsible for managing the Care Plan

- who will be responsible for monitoring the health condition of the person receiving care
- the anticipated date of the first review, and how it is to be carried out
- the period of notice that will apply if the CCG decides to reduce the amount of the direct payment
- where necessary, an agreed procedure for discussing and managing any significant risk, and
- where people lack capacity or are more vulnerable, the plan should consider safeguarding, promoting liberty and where appropriate set out any restraint procedures.
